

LUSEAUX®

POWER WASH

MACHINE DISHWASHING COMPOUND

GENERAL DESCRIPTION: A top quality machine dishwashing compound designed for use in the hardest water. Contains a special wetting agent that promotes efficient soil removal with very low foam and quick rinsing action. Good for use on sterling silver or silver plate.

ADVANTAGES:

For use in the hardest water
Efficient soil removal
Quick rinsing action
Safe on sterling silver and silver plate

PROPERTIES:

Color	Orange
Odor	Mild
Form	Granular powder
Solubility	Moderate
Sudsing	Controlled foaming
Rinseability	Excellent

APPLICATION: Dishes should be scraped and pre-rinsed to insure proper operation of machine and economy in use of washing compound. For an average 20-gal. machine, use approx. ½ (4 oz.) cup to charge the machine. As rinse water dilutes wash solution add approx. ½ cup for every 5 to 7 trays. Amount required will vary with water hardness and work load. For best results, maintain wash solution temperature at 120 degrees F or above. For small counter models use 1/3 to ½ cup. Add compound periodically to compensate for rinse dilution.

CAUTION: May burn or irritate eyes. May be irritating to skin. Avoid contact. Harmful if swallowed. Keep out of reach of children.

PACKAGING:

50 lb Pail

Always consult the MSDS sheet for any hazardous ingredient information, precautions for safe handling and use, health hazard data, or other information regarding this product.
