<b>Skin Contact</b>	For minor skin contact, avoid spreading material on unaffected skin. . Wash skin with soap and water. Remove and isolate contaminated clothing and shoes. Wash contaminated clothing before reuse.
<b>Inhalation</b>	After high vapor exposure, remove to fresh air. If breathing is difficult. give oxygen. Get medical attention/advice if irritation persists.
<b>Ingestion</b>	Rinse mouth. Give plenty of water to drink. Do NOT induce vomiting. GET MEDICAL ATTENTION IMMEDIATELY. Do NOT give liquids to an unconscious or convulsing person.

**Most Important Symptoms and Effects, both Acute and Delayed**

<b>Symptoms</b>	<b>Eye contact</b> is corrosive and can cause severe burns to eyes, redness, tearing, and blurred vision. <b>Skin contact</b> causes severe skin burns and irritation. <b>Inhalation</b> may cause severe respiratory tract irritation. . <b>Ingestion</b> causes corrosion, burns to mouth and esophagus, abdominal pain, and chest pain.
-----------------	--

**Indication of any Immediate Medical Attention and Special Treatment Needed**

<b>Note to Physicians</b>	All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.
<b>Other Information</b>	Call 911 or emergency medical service. Ensure that medical personnel are aware of the material involved and take precautions to protect themselves. Keep victim warm and quiet.

<b>SECTION 5: FIRE-FIGHTING MEASURES</b>
--

**Suitable Extinguishing Media**

Not combustible. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Unsuitable Extinguishing Media:** None known

**Specific Hazards Arising from the Chemical**

Contact with active metal may liberate explosive hydrogen gas.

**Protective equipment and precautions for firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSNA/NIOSH (approved or equivalent) and full protective gear.

<b>SECTION 6: ACCIDENTAL RELEASE MEASURES</b>
---

**Personal Precautions, Protective Equipment and Emergency Procedures**

**Personal Precautions:** Use proper personal protective equipment as listed in Section 8.

**Environmental Precautions:** Prevent material from waterways, sewers, basements or confined areas.

**Methods and Material for Containment and Cleaning Up**

**Methods for Containment:** Exercise caution during neutralization as considerable heat may be generated. Neutralize spill area with soda ash, sodium bicarbonate or lime. Flush neutralized spill with copious amounts of water.

**Methods for Cleaning Up:** Keep unauthorized personnel away. Dike spill using absorbent or impervious materials such as earth, sand or clay. Sweep spilled material into dry, sealable containers. Dike or retain dilution water or water from firefighting for later disposal.

<b>SECTION 7: HANDLING AND STORAGE</b>
--

**Precautions for Safe Handling**

**Advice on Safe Handling:** Wear personal protective equipment as shown in Section 8. Do not get on skin or in eyes. Avoid breathing vapors and mists. Do not ingest. Handle an open container with care. Use only with adequate ventilation. Use caution when combining with water. DO NOT add water to corrosive liquid. ALWAYS add corrosive liquid to water while stirring to prevent release of heat, steam and fumes. This product reacts violently with bases liberating heat and causing spattering.

**Conditions for Safe Storage, Including and Incompatibilities**

**Storage Conditions:** Store in cool/low-temperature, well-ventilated, dry place. Store locked up. Keep away from incompatible materials. Ventilate enclosed areas.

**Incompatible Materials:** Contact with active metal may liberate explosive hydrogen gas.
